THE NEW YORK SUN

WEDNESDAY MORNING, APRIL 10 1861.

From Europe and Asia. We published yesterday morning interesting news from Europe and Asia. There is the sad intelligence of the less of the ship Middlesex, of this port, having 68 persons on board, of whom only 15 reached land, and of these, two died

from exposure and fatigue. The strikes in England are extending, and immense numbers of workingmen are out of employment. The English Courts will have a nice question, and one involving important political results, to decide in the prosecution instituted by FRANCIS JOSEPH, Emperor of Austria, against Louis Kossetti, fermerly Governor of Hungary, for causing to be engraved national notes of Hangary for circulation in that country. Kossuru takes the ground, in his defence, that FRANCIS JOSEPH is not new, and has never been King of Hun-

gary, either in law or in fact. Italian affairs attract much attention. In the Italian Chamber of Deputies, Count Cavour declared that Italy had a right to have Rome for her capital, but to have it, France must con-

Further Details of the Loss of the Middleson. THE ship Middlesex, whose loss at sea on the 12th ult. was reported vesterday, belonged to Tarscort's line of New York and Liverpool packets, and was of about 2.500 tons burien. She sailed from Liverpool on the 18th of February, baving on board a crew of 26 bands, seven officers, 35 passengers and a cargo of coal and crate. The ship and cargo are reported to be insured. Poor Thomas leeped overboard, divad, and brought there to the surface, but the rope had been out, the beat had drifted to leeward, and could not put up to them, and the unhappy pair perished, locked in each other's arms.

Last Saturday morning, they saw the Bankett Islanda, on the coset of Kerry. al—This case involves the question of the right of Corporations to plead usury, under the act of 1:50. The action is brought to recover the sum of 1:50. The action is brought to recover the sum of 19,000, alleged to have been paid by the Island City Benk (of which plaintiff is the Receiver) to the decadants, upon rates of interest above seven per cent. The plaintiff seeks to recover only the excess (ever and above what was void) of the legal later.

The aut of 15:0 provides that "no Corporation shall hereafter interpose the defence of __ry in any action." Upon the trial in the Supreme Coffe, it was held that this language of flatinally cut off the plaintiff's recress in the present case, and gave judgment for the defendant. The plaintiff appeals to the Court, urging that the language of the statute evidently applied only to one class of usury defences, to wit: that class upon which peality of entire forfalture falls, and not to a defence like this. In this instance the plaintiff sought to recover only what had been paid by the Back, own and above the lawful rates. He did not seek to be discharged of all the obligations of the contracts and shows the lawful rates. He did not seek to be discharged of all the obligations of the contracts upon which usurious charges were made. The Court will determine by its decision whether this language applies to one only, or both of these usurious defences. Decision was reserved.
